Subject: 1000 ML water transmission pipeline to Palmerston

From: Mr Gerry Wood to Power and Water Corporation
Power and Water Corporation

10-2

Question: Question on Notice No 10.2

Mr WOOD: For the 1000 ML water transmission pipeline to Palmerston, what was the original estimated cost, what was the tender price, what was the final price when it had finished, and were there any extra payments required?

Mr CHAIRMAN: That is question is No 10.2.

Answer:

Answer to Question on Notice 10.2

Mr MACRIDES: It is question on notice 10.2. The original estimate which was done some 10 years ago, in fact, was $7.5m and, because it has been on the planning stage for quite some time, tenders were called and tenders came in at $8.4m. The final cost was $9m and, I would imagine the $600 000 difference between the tender and the final price, was some variations that occurred during the course of the construction process.
