**Question Taken on Notice**

**Question Number:** 10-1

**Output Number:**

**Date:** 24/06/2021

**From:** Mr Gerard Maley

**To:** Mr John Langoulant

**Portfolio:** Essential Services

**Agency:** Power and Water Corporation

**Subject:** Percentage of gas used by Power and Water Corporation

---

**QUESTION**

What percentage of the gas that you pay for is actually used by your organisation? Can we have that for this financial year and next financial year?

**ANSWER**

Power and Water has used 100% of the gas paid for in 2020-21. It anticipates that the same will apply in 2021-22.

Power and Water is not a large user of gas and consumes approximately 0.5% of the gas for generation purposes. The remainder is sold to Territory Generation for electricity generation and to other large industrial customers.
