Hello,

I would like to formally write in disagreement to the passing of the upcoming position for Territory Coordinator. The current laws and regulations for the NT are there for a reason, having a position that can 'out rule' these is an obvious attempt at sneaking through projects, policies or plans that could damage the NT.

This position undermines our democracy and when climate, people and culture should be at the forefront of the Territory we are moving against the basic care and knowledge of Country. As we also watch LA burn, and Darwin experiencing record highs, from temperature to imprisonment.. change is beyond a bandaid fix. one position should NOT have authority over others, it's a disgusting attempt to get through harmful projects.

The economy is important, but we're not sitting on a life size monopoly game, people and land are more important!

Regards,
Katena Valastro.
