RE: Inquiry into the funding of Rugby League Facilities in Darwin

Dear Sir/Madam

I write to you to express my concern about the government's decision to spend \$20 million of public money on a redevelopment of Richardson Park. There is a clear case for this significant government spend to be investigated further before significant funds are spent on a facility not in the public interest.

I am particularly concerned that Richardson Park is very close to many private residences. Parking will be a severe problem, and the noise and lighting level will be extremely comfortable for those in the vicinity. I live in The Narrows and even as far away as I am from the Park the noise used to be a nuisance in the night when it was operating,.

Also it appears that there hasn't been a proper environmental study, which seems pretty silly. It would smarter and far more practical to build this at Marrara.

Please stop this foolish idea before it gets any further.

Yours sincerely,

Yours sincerely
Jill Kuhn
