---

**5-4**

**Question:** What is the average amount of time the mobile police van is placed at various sites around Alice Springs?

**Answer:**

Answered On: 16/08/2007

Answer:

The mobile police station has been used in the Larapinta area, targeting youth groups committing minor criminal offences and anti social behaviour. On each occasion the mobile police station was set up near Ellery Drive and was in use for several hours each time.

At the Todd Mall, the Mobile Police Station was again set up for short periods predominately under the sails.

The Mobile Police Station has also been used frequently at the North side Foodland car park area which is an identified hotspot, and on each occasion it was deployed for several hours.
