LEGISLATIVE ASSEMBLY OF THE NORTHERN TERRITORY WRITTEN QUESTION

Mr Yan to the Minister for Housing and Homelands:

Town Camps and Homelands

Under the NT Homelands Program, \$38.8 million per annum goes towards the delivery of housing maintenance, municipal and essential services to approximately 400 eligible homelands. Services are delivered by 38 homeland service providers, with existing service agreements to conclude in June 2023.

1. Does Budget 2022-23 include this \$38.8 million as usual?

Yes. In 2022-23, the Department of Territory Families, Housing and Communities (the Department) has allocated \$39.548 million to the Homelands Program for the delivery of housing maintenance, municipal and essential services in 394 homelands and 43 town camps. The increased allocation is due to an annual budgetary increment.

2. Please provide details of the 400 eligible homelands and how much they each received under this funding program?

In 2021-22, the Department provided Homelands Program grants funding of \$38.8 million to 38 service providers for the delivery of services to 395 homelands and 43 town camps, as follows:

Homelands Municipal and Essential Services	\$15.3 million
Town Camps Municipal and Essential Services	\$2.9 million
Housing Maintenance Services	\$8.0 million
Homelands Jobs	\$5.0 million
Capital Grants	\$6.4 million
Emergency Projects	\$1.2 million
Total	\$38.8 million

Attachment A provides the total 2021-22 grant funding for all funded homelands, town camps and other locations.

3. How much funding is provided for town camp homes in Borroloola?

In 2021-22, the Department provided Homelands Program funding of \$730,650 to the Mabunji Aboriginal Resource Indigenous Corporation for the delivery of housing maintenance, municipal and essential services to the Borroloola town camps.

4. How many town camp homes are there in Borroloola?

There are 97 homes in the Borroloola town camps.

5. Is there a set amount per home per annum provided to the local council to maintain homes in town camps in Borroloola?

The housing maintenance grant funding is allocated at the same amount per house in the 25 town camps where public housing leases are not in place, including the Borroloola town camps.

In 2021-22, housing maintenance grant funding was allocated at \$3,870 per dwelling. In 2022-23, this funding will be allocated at \$3,874 per dwelling.

6. Is there any funding being committed for upgraded roads in the town camps and surrounding homelands and if so, how much and when will the work be completed?

The Department of Infrastructure, Planning and Logistics (DIPL) Housing Program Office is currently undertaking a housing upgrade program in the Borroloola town camps. DIPL has committed to remediating the Garawa community road on completion of the housing program. The scope and full cost will not be known until the housing program has been completed.

7. How many safety audits have been conducted on all NT Town Camps in the reporting period?

Healthy Homes inspections, in line with the requirements for Safety and the Nine Healthy Living Practices, have been completed in all 17 Alice Springs town camps and are currently in progress in the Darwin region at Amangal, Bagot, Knuckey Lagoons and Palmerston Indigenous Village, and in Katherine at the Miali Brumby and Walpiri town camps.

8. How many road safety audits have been conducted on NT Town Camps in the reporting period?

The Department's technical officers are required to inspect all town camps twice per annum and provide information back to the Department on the condition of housing and infrastructure. The Department does not conduct road safety audits on town camps.

9. How many audits have been conducted on hazardous items and or materials in NT Town Camps in the reporting period?

The Department's technical officers are required to inspect all town camps twice per annum and provide information back to the Department on the condition of housing and infrastructure. The Department does not conduct audits of hazardous items or materials on town camps.

10. What actions have been taken to rectify any findings from these audits?

The Healthy Homes dwelling condition assessments provide a detailed report for the maintenance of town camp dwellings.

In the Alice Springs town camps, the first fix of identified maintenance issues is being undertaken by the assessment contractor, with the report then provided to housing maintenance contractors for further follow up.

For the Darwin and Katherine town camps, the condition assessment reports have been provided to the respective service providers for first fix attention and ongoing maintenance works. Works in response to the reports are currently in progress.
