I would like to advise the Committee that I fully support the introduction of VAD and request that it be introduced without further delay. Many people have suffered unnecessary because of previous inaction.

There is legislation in all States and many have States are now aware of changes they would have introduced if given a second chance. We can introduce a truly inclusive law.

I also believe that it should not be a conscience vote allowing all our views taken into account.

My final request is that this legislation not only address VAD for the elderly but look into younger people.

I write this as an individual and would be more than willing to speak to member of the Committee.

Thank for reading this and once again request action and not just "yet another report".

Christine Doidge
