- (c) **Where there is a difference between FTE and Headcount (Actual), please provide an explanation for the difference, including any reasons for the use of part-time and casual positions within the overall workforce profile.**

Full Time Equivalent (FTE) = the proportion of an employee's salary payment to that of an equivalent full-time employee in any given fortnight.

Paid Headcount = Headcount is the count of physical people, so a part-time person would count as one.

The NT Government provides opportunities for employees to balance the demands of work with the needs of family and general health and wellbeing. Flexible work practices are used in the NT Public Service to attract and retain employees. Flexible work arrangements can include flexibility in relation to an employee's hours of work, or mode of employment such as part-time, and leave

LEGISLATIVE ASSEMBLY OF THE NORTHERN TERRITORY

- 72. What steps has the Agency taken to ensure government services delivered by the Agency are accessible and affordable, particularly in remote and regional areas?**

Continuing to provide accessible and affordable health services across remote and regional areas by actively reviewing models of care and working closely with the Commonwealth Government. The NT public health system provides free services for Medicare-eligible patients to ensure Territorians receive the best possible care.

- 73. Has the Agency reviewed any programs or services to reduce out-of-pocket costs for users? If so, provide details and outcomes.**

No. Cost of living relief measures are not generally delivered through the public health system. However, eligible patients can access public hospital services free of charge under Medicare.

- 74. Please quantify any savings to households or businesses that have resulted from Agency initiatives since 1 July 2025.**

Nil. Cost of living relief measures are not generally delivered through the public health system. However, eligible patients can access public hospital services free of charge under Medicare.

- 75. What additional costs has the Agency incurred during the period 1 July 2025 to 31 March 2026 as a result of increases in fuel prices? Please detail:**
- a) Total additional expenditure attributable to fuel price increases.**
 - b) Impact on operational budgets (including service delivery, logistics, and regional operations).**
 - c) Any mitigation strategies implemented to manage these increased costs.**

Increases in fuel prices are likely to place upward pressure on the cost of supplying and distributing clinical consumables and on patient transport services, particularly where freight and long-distance travel are required. Most of these services are delivered under contract, with any cost pressures to be managed through existing contract and supplier arrangements (including relevant price adjustment provisions, where applicable). At this time, it is difficult to quantify the direct impact attributable to fuel price increases.

76. What additional costs has the Agency incurred during the period 1 July 2025 to 31 March 2026 as a result of increases in airfares? Please detail:
- Total additional expenditure attributable to airfare increases.
 - Impact on travel requirements, including any reduction, deferral or substitution of travel.
 - Any changes to service delivery, stakeholder engagement or program implementation as a result.

The Agency has experienced upward pressure on travel costs due to increases in airfares over the period. There has been no change to service delivery or planned travel requirements, with essential travel continuing to be undertaken to support clinical operations, stakeholder engagement and program delivery. Quantifying the additional expenditure attributable solely to airfare increases is difficult at this time, as fare prices remain volatile and vary by route, timing and availability, meaning comparable like-for-like cost estimates are not consistently available.

 - d) The date a response was provided**
- 80. For each enquiry where no response was provided, please detail the reasons why no response was issued.**

Frequency of meetings

Meetings will be convened virtually quarterly, with a minimum two meetings per year. Two hours will be allocated to each meeting.

Where matters require immediate or urgent review or approval, the Chair may ask the Committee to convene at short notice or to consider matters out-of-session.

From time to time, urgent amendments to Approved Procedures and Forms may require the endorsement of the Committee outside of the scheduled meetings. In these circumstances, documents will be circulated via email as an out of session amendment with a one week timeframe for feedback and/or endorsement.

Administration and reporting

The Office of the Chief Psychiatrist (the OCP) will provide Secretariat support to the Committee. The minutes will reflect when quorum is met for the meeting.

The OCP will draft minutes to be endorsed by the Chair before circulating to the members.

Draft Minutes will be circulated to members within two weeks after each meeting. The Chair will decide if there are any issues in the minutes that are not for circulation. Members may share the final minutes within their organisation, noting compliance requirements and penalties in section 147(a) of the Act (and listed in Appendix A).

Agenda, Agenda Papers, procedures, forms and/or other resources requiring consideration by members will be circulated a minimum of two weeks prior to meetings.

The OCP will manage a Tracking Register of procedures and forms to monitor and track the review and approval process.

Once endorsed by the Committee, updated or new procedures or forms will be provided to the Chief Psychiatrist for approval as per section 18 of the Act. Other resources developed by the Committee will be approved by the Committee, or the Chair or delegate on its behalf.

Once documents are approved, the OCP will ensure that they are uploaded and published to the Northern Territory Government website and the Policy Guidelines Centre (PGC). This will be notified to the Persons-in-Charge of Approved Treatment Agencies and Facilities (PIC ATA and PIC ATF) who will undertake the responsibility to disseminate and communicate any new versions of Approved Forms and Procedures to their respective services.
