Response received	6 March 2013
Response to be presented	26 March 2013

Petition

Petition re the Humpty Doo Fire Station Closure

We the undersigned, ask that the Government reverse its decision to close the Humpty Doo Fire Station. We believe that this decision to close the fire station will mean longer response times, will put lives and properties at greater risk, does not take into account the growing population of the rural area, does not take into account the increase in traffic especially haulage trucks on our highways and has been done without any consultation with the community or local electorate members.

Response

On Thursday 21 February, I (Hon Terry Mills MLA) advised the House that the decision to transition the Humpty Doo Fire Service from permanent (career fire fighters) to volunteer status had been reversed and would no longer take effect.
