

**LEGISLATIVE ASSEMBLY OF THE NORTHERN TERRITORY**

**WRITTEN QUESTION**

Mr Guyula to the Minister for Health:

**Morgue Capacity**

- 1. What is the capacity for the morgue in Darwin?**  
125 bays.
- 2. What is the capacity for the morgue in Nhulunbuy?**  
14 bays.
- 3. Have either of these morgues been full during the last financial year, and what happened in these circumstances?**  
No.

At times when capacity is becoming limited in Royal Darwin Hospital morgue (e.g. 113 bays in use), additional capacity is sourced through an external service provider.

At times when capacity is becoming limited in Gove District Hospital morgue (e.g. 12 bays in use), transfers are arranged to Darwin morgue facilities.
