To whom it may concern,

I support the introduction of VAD for all in the NT.

This is a cause that is close to my heart. When I was 18, I held my mother's hand as she died from brain cancer. A long and painful experience for my mother and our family. I went on to become a nurse and have been present with many other families as they have watched their loved one pass away. The pain and suffering experienced by some, despite being given the best care available, is inhumane.

I do not have the answers to your questions about how all Territorians can access VAD and when. However, I support a committee to address all these questions who can review what is occurring in other states within Australia to devise a process to at will work best for all in the NT.

Thank you,

Kind regard,  
Kimberley Robson
