

LEGISLATIVE ASSEMBLY OF THE NORTHERN TERRITORY
12th Assembly

Committee on the Northern Territory's Energy Future

Public Briefing: Friday 11 October 2013

QUESTIONS TAKEN ON NOTICE

Power and Water Corporation

- 1. What is the price of the Dingo Gas that PWC recently purchased from Magellan?
Question noted as commercial in confidence, Committee agreed to refer it to the Minister for Essential Services.**

Not applicable.

- 2. Of the 2% to 3% in demand growth per annum, can you provide a split between domestic and commercial demand growth per annum?**

No, PWC does not disaggregate electricity consumption (MWh) growth between domestic and commercial for customers consuming less than 750 megawatt hours of electricity per annum. PWC assesses electricity consumption growth for large customers on an individual customer basis.

- 3. Do we recover the full cost of the power supplied to McArthur River, or do we subsidise it and how much?**

PWC supplies electricity to McArthur River Mine P/L in accordance with the terms and conditions of the Electricity Supply Agreement negotiated in 1995. The term of this Agreement is 20 years. The terms and conditions of this Agreement are commercial in confidence.
