Question: Please explain where the missing 2018 remote public housing dwellings have gone?

Answer: There are no missing dwellings.

A total of 1328 additional outstation dwellings managed by resource centres
689 additional outstation dwellings managed by shires counted in the remote public housing dwelling figures for the 2011-12 budget were taken out for the 2011-12 estimate resulting in a difference of 2017. The remaining property is a result of movement in 'additional dwellings constructed' less 'demolitions' as reported in Budget Papers.
