**Question:**

Minister, can you please provide me with a copy of the design costs for each individual project within the science and language centre for 21st century secondary schools program?

**Answer:**

Answered On: 08/07/2010

Answer: ESTIMATES COMMITTEE  
Question Taken on Notice

Date: 18 June 2010 Output: Construction and Infrastructure  
Sub Output: BER Stimulus

Subject: Design fees for Science & Language Centres for the 21st Century

From: The Hon Gerald McCarthy MLA To: Mr Adam Giles

Department: Construction and Infrastructure

Number: 6.9

Question:

Provide me with a copy of the design costs for each individual project within the science and language centre for 21st century secondary schools program?

Answer:

The design costs for the 8 SLC are as follows:

1. Alice Springs High School - \$199,393.45
2. Gunbalanya School - \$39,226.37
3. Katherine High School - \$205,644.09
4. Maningrida School - \$65,531.00
5. Shepherdson School - \$214,432.08

6. Tennant Creek High School - \$46,391.82
7. Milingimbi School - \$65,039.97
8. Gapuwiyak School - \$44,791.76

Whilst template designs were utilised where possible and modified to be fit for purpose, the Alice Springs High School, Katherine High School and the Shepherdson School were specifically designed. Some of the remote schools projects had to have their design modified in some cases for fire upgrades or cyclone coding and the Shepherdson and Maningrida Centres were designed to incorporate cyclone shelters. These specific changes are reflected in the higher design costs for these projects.
