

**LEGISLATIVE ASSEMBLY OF THE NORTHERN TERRITORY**

**WRITTEN QUESTION**

Mrs. Finocchiaro to the Attorney-General and Minister for Justice:

**Integrated Justice Information System (IJIS)**

1. What is the status of the modernisation of IJIS and rollout of a master data management (MDM) system?
2. Are any further improvements to the IJIS contemplated or currently budgeted for?

---

ANSWER:

1. IJIS

The Department is currently in phase six (out of eight) of the modernisation and should be completed by the end of 2021-2022 financial year on the basis of no major impediments to the roll out of the case management system for Courts, Director of Public Prosecutions and the Fines Recovery Unit.

MDM

The MDM is an internal system, its main purpose is to support data management for justice information systems, and it is not intended to be rolled-out for general use.

2. No. Currently the rollout of the new case management system includes all divisions who currently use IJIS in the department and funding for the rollout in Project Odyssey will be extended to Director of Public Prosecutions with the implementation of the Odyssey Attorney-Manager commencing in 2018-2019 financial year.
