

**LEGISLATIVE ASSEMBLY OF THE NORTHERN TERRITORY**

**WRITTEN QUESTION**

Mr Elferink to Treasurer

**Compensation Contribution Premium**

On page 19 of the MAC Business Statement of Corporate Intent, 2007-2010 it says "subject to any unforeseen events, and in particular strong growth in the investment markets, it is not anticipated that the compensation contribution premium will increase in the near future.":

1. As the investment markets have lost a substantial amount of their value, how will this now impact on compensation contribution premiums.
  2. If so, how much will the interest rate rise.
