Subject: Building compliance of NTG owned and occupied buildings

QUESTION:

Provide evidence and facts as to the number of government-owned and government-occupied buildings, which includes schools, across the Northern Territory as to how many are still not compliant according to the legislation and how many are compliant?

ANSWER:

Government owns and occupies thousands of assets across the Territory. Many of these assets have multiple building permits. Government continues to regularly maintain assets to ensure they are safe.

Given the quantum of assets, the amount of administrative effort required to respond to this question is excessive and would result in an undue diversion of resources from service delivery.
