Housing & Community Development

**Subject:** New Public Housing

---

**ANSWER**

For 2018-19, we have already delivered 24 which was 16 replacement dwellings and eight new dwellings. Under construction as at 31 March, we have 13 replacement and 10 new dwellings. Our total for 2018-19 we are looking to deliver 29 replacement dwellings – where you knock over and replace or do an in-fill – and then 18 new dwellings. For 2019-20 we are aiming for 38 replacement dwellings and 10 additional dwellings.
