

LEGISLATIVE ASSEMBLY OF THE NORTHERN TERRITORY

WRITTEN QUESTION

Ms Boothby to the Minister for Equality and Inclusion:

Gender Equality Action Plan

The Gender Equality Statement of Commitment, released in July 2020, indicated that a next step in progressing the Statement was to “review existing data, identify data sources and undertake baseline data analysis to tell us the current status of gender equality in the Northern Territory”.

1. Has that review been undertaken? What data was identified to measure and monitor the progress of gender equality in the Northern Territory? Please provide as much detail as possible
2. Were domestic and sexual violence figures identified as part of that data set?
