Attention Legal and Constitutional Affairs Committee

Thank you for the opportunity to provide a submission on the "Voluntary Assisted Dying in the NT - final report 2024."

I fully agree with the conclusion and recommendation of the report for "the NT to implement VAD legislation that is broadly consistent with other VAD legislation in other Australian States and Territories."

Some years ago, my father suffered from an incurable degenerative disease for over >5 years. It was a most traumatic experience for our family and friends, not to mention my father, to observe and experience this over an extended period in the absence of VAD.

Like residents of other states across this country, NT residents must have the opportunity to choose the VAD path if they wish.

Regards
L. Harrison
