**Subject:** submissionre development of Richardson Park

The expenditure of \$20 million at Richardson Park is **not justifiable.**

Marrara is already well equipped and there are many advantages to sharing the site with other sports.

NT Rugby League have already said they want to go to Marrara.

Road access to Richardson Park is poor. Suggested new access roads would be costly and disruptive.

Rezoning would be required, in addition to bushland clearing.

There appears to have been no due process in this matter:

- the proposed Richardson Park redevelopment is not mentioned as part of either of the first two Area Plan booklets.
- there is a very short lead up to the closing of this submission which does not allow full participation.
