Disease Control Budget Queries

1. What initiatives will the Government put in place to increase the rates of immunized children in both the 12 months of age and two years of age categories?
2. How many people living with HIV in the NT receive the anti-retroviral therapy?
3. How much does it cost to supply every person who receives anti-retroviral therapy?
4. What will you use the extra \$3.9 million for in Disease Control? (BP3, p119) – the Budget Paper seems to say the extra funding is through Commonwealth and external funding so is it tied? If so, what is it tied to?
