Angurugu

Tabled Graham Symons
Estimates 9-2
22/6/11

Business activities, business structures and industries

The table below is intended as baseline information enabling all stakeholders to monitor change at agreed intervals. The data was gathered during the period May-July 2010 and represents a 'snapshot' at that particular time.

With a town population estimated at 933 in 2006 (source: NT Treasury's *Estimated Resident Population*), Angurugu has a diverse range of business activities representing a broad spectrum of industries. These businesses cater to the population's basic needs, *ie.* food, groceries and other essential items. They also provide services centred on construction and repairs and maintenance. It should be noted that Angurugu's residents have access to additional products and services in the nearby mining town of Alyangula (18km), which caters to a high number of permanent and temporary workers and their families.

The 33 (see Note 2 below) business activities recorded for Angurugu are, in their majority (45%), conducted under one structure, *ie.* 'Local Government'. Of note is the fact that 21% of business activities operate under a company structure.

The complete breakdown of business activities by structure is as follows:

| STRUCTURE (1) | BUSINESS ACTIVITIES RECORDED | PERCENTAGE OF TOTAL |
|------------------|------------------------------|---------------------|
| Local Government | 15 | 45% |
| Company | 7 | 21% |
| Association | 3 | 9% |
| Partnership | 3 | 9% |
| Sole Traders | 3 | 9% |
| Trust | 2 | 6% |
| Government | 2 | 6% |
| Total (2) | 35 (2) | |

Notes:

- (1) For the purposes of this inventory, each business activity's structure has been recorded as one unless otherwise indicated. In other words, although there may be for instance a number of artists operating as sole traders, the business activity has been counted as one.
- (2) Total number of business activities and % may be above the number in the table below/above 100% as some business activities may be operated in a joint venture-style arrangement (eg. 'Government' and 'Company').

Business activities, business structures and industries

The table below is intended as baseline information enabling all stakeholders to monitor change at agreed intervals. The data was gathered during the period May-July 2010 and represents a 'snapshot' at that particular time.

With a town population estimated at 1,941 in 2006 (source: NT Treasury's *Estimated Resident Population*), Galiwinku has a diverse range of business activities representing a broad spectrum of industries. These businesses cater to the population's basic needs, *ie.* food, groceries and other essential items. They also provide services centred on construction; automotive services; and repairs and maintenance.

The 49 (*see Note 2 below*) business activities recorded for Galiwinku are, in their majority (64%), conducted by two entities, *ie.* 'Local Government' and 'Association'. Of note is the very low number of business activities operating under a Company structure, despite a comparatively significant number of business activities. Government involvement in 'Construction' relates to the Strategic Indigenous Housing and Infrastructure Program (SIHIP).

The complete breakdown of business activities by structure is as follows:

| STRUCTURE (1) | BUSINESS ACTIVITIES RECORDED | PERCENTAGE OF TOTAL |
|------------------------|------------------------------|---------------------|
| Association | 16 | 33% |

Milingimbi

Business activities, business structures and industries

The table below is intended as baseline information enabling all stakeholders to monitor change at agreed intervals. The data was gathered during the period May-July 2010 and represents a 'snapshot' at that particular time.

With a town population estimated at 1,024 in 2006 (source: NT Treasury's *Estimated Resident Population*), Milingimbi has a range of business activities representing a broad spectrum of industries. These businesses cater to the population's basic needs, *ie.* food, groceries and other essential items. They also provide services centred on construction; repairs and maintenance; and arts and craft production and sales.

Of the 34 business activities recorded for Milingimbi nearly half (47%) are conducted by one entity, *ie.* 'Local Government'. Of note is the comparatively significant number of business activities operating under a Sole Trader structure (24%).

The complete breakdown of business activities by structure is as follows:

| STRUCTURE (1) | BUSINESS ACTIVITIES RECORDED | PERCENTAGE OF TOTAL |
|------------------------|------------------------------|---------------------|
| Local Government | 16 | 47% |
| Sole Traders | 8 | 24% |
| Company | 4 | 12% |
| Aboriginal Corporation | 4 | 12% |
| Association | 1 | 3% |
| Government | 1 | 3% |
| Total (2) | 34 (2) | |

Notes:

- (1) For the purposes of this inventory, each business activity's structure has been recorded as one unless otherwise indicated. In other words, although there may be for instance a number of artists operating as sole traders, the business activity has been counted as one.
- (2) Total number of business activities and % may be above the number in the table below/above 100% as some business activities may be operated in a joint venture-style arrangement (*eg.* 'Local Government' and 'Association').

Business activities, business structures and industries

The table below is intended as baseline information enabling all stakeholders to monitor change at agreed intervals. The data was gathered during the period May-July 2010 and represents a 'snapshot' at that particular time.

With a town population estimated at 1,457 in 2006 (source: NT Treasury's *Estimated Resident Population*), Nguui has a diverse range of business activities representing a broad spectrum of industries. These businesses cater to the population's basic needs, *ie.* food, groceries and other essential items. They also provide services centred on construction; repairs and maintenance; and shipping/freight. Nguui is further able to cater to visitor/temporary resident needs through the provision of some commercial accommodation and tourism services and products.

Of the 61 (*see Note 2 below*) business activities recorded for Nguui nearly half (48%) are conducted under the 'Association' structure. 'Local Government'-run business activities come second at 23%.

The number of business activities recorded in Nguui is the third-highest of all 15 Northern Territory priority Remote Service Delivery towns behind Yirrkala and Maningrida. Of note is the fact that 'Arts and Crafts Production' and 'Arts and Craft Sales' are operated under three different structures (Association; Aboriginal Corporation; and Company). The other notable category of business operators is 'Company', which is the preferred structure for 20% of business activities.

The complete breakdown of business activities by structure is as follows:

| STRUCTURE (1) | BUSINESS ACTIVITIES RECORDED | PERCENTAGE OF TOTAL |
|------------------------|------------------------------|---------------------|
| Association | 29 | 48% |

Yirrkala

Business activities, business structures and industries

The table below is intended as baseline information enabling all stakeholders to monitor change at agreed intervals. The data was gathered during the period May-July 2010 and represents a 'snapshot' at that particular time.

With a town population estimated at 785 in 2006 (source: NT Treasury's *Estimated Resident Population*), Yirrkala has a large range of business activities catering to the population's basic and other needs. Yirrkala further caters to limited visitor/temporary resident needs through the provision of visitor accommodation. In addition to the significant level of products and services available in town, Yirrkala residents are also able to benefit from their proximity to the large mining town of Nhulunbuy (17km).

Of the 64 business activities recorded for Yirrkala, 33% are conducted under 'Aboriginal Corporation', with 'Sole Traders' and 'Local Government' following at 27% and 20% respectively.

Despite a comparatively smaller population, Yirrkala has the highest number of business activities of all 15 Northern Territory priority Remote Service Delivery towns, ahead of Maningrida and Nguuiu. This may be a reflection of Yirrkala's being both a regional and cultural hub.

The complete breakdown of business activities by structure is as follows:

| STRUCTURE (2) | BUSINESS ACTIVITIES RECORDED | PERCENTAGE OF TOTAL |
|------------------------|------------------------------|---------------------|
| Aboriginal Corporation | 20 | 33% |
| Sole Traders | 16 | 27% |
| Local Government | 12 | 20% |
| Association | 9 | 15% |
| Company | 5 | 8% |
| Government | 2 | 3% |
| Total (2) | 64 (2) | |

Notes:

- (1) For the purposes of this inventory, each business activity's structure has been recorded as one unless otherwise indicated. In other words, although there may be for instance a number of artists operating as sole traders, the business activity has been counted as one.
- (2) Total number of business activities and % may be above the number in the table below/above 100% as some business activities may be operated in a joint venture-style arrangement (eg. 'Local Government' and 'Association').
