

LEGISLATIVE ASSEMBLY OF THE NORTHERN TERRITORY

WRITTEN QUESTION

Mr Guyula to the Minister for Education:

RATE Program

1. The Education Department's 2022 Annual Report states that "RATE will build the local teacher workforce". The current version of RATE is very different to the old version of RATE that many of our communities were calling for. Does a graduate of this new RATE program graduate as a remote teacher?
2. What is the pay scale for a remote local teacher whose highest qualification is the RATE certificate? And how does it compare to the current teacher pay scale?
