To whom it may concern,

Corruption, kickbacks, corporate benefits and deals are being exposed in the US.

Your new bill to removes scrutiny and give ridiculous power to a likely corrupted member is another example of why distrust in government is high. We are losing our country to short term greedy thinkers who are without care or conscience for the environment.

"Democracy in the NT is under threat.

Yesterday, the CLP government introduced the Territory Coordinator Bill to the legislative assembly. This bill would give the Chief Minister and an unelected bureaucrat a sweeping range of powers, including the ability to exempt a development project from thirty-two of the Territory's existing laws.

Many of you will have already made a submission on this bill - but the government has refused to make them public, or disclose how many were opposed. Now that the bill (and it is even worse than the draft!) has come before Parliament, there is the opportunity for a Legislative Scrutiny Committee to seek further input from the public and report back on whether the bill should be passed."

Disgusting corruption will be exposed. Many of us love our country and care to protect it.

Sincerely,
Anna Harpley
