I support Voluntary Assisted Dying in the Northern Territory.

I believe the eligibility criteria for a person to access VAD, is an illness that is taking away their quality of life (terminal or not). They are of sound mind and do not wish to suffer any longer.

I believe that there should be registered people who can be accessed by eligible people to receive VAD. Ideally in an environment that gives dignity and peace in the last hours of their existence.

There must be a formal register system, which includes a checklist that all eligibility criteria has been met, by whom and when. Records of all medication for VAD, issuing time and date, when and where the body was released for cremation or burial, issuing of death certificate.
