To Whom it May Concern

After working in the health sector for 20 years I have seen many of our children slip through the cracks. We need to bring in the new amendments to the legislation to protect all our children so that they have a chance to grow up into responsible adults. Every child needs to be given the chance to live in a safe and loving household. They are our future in the NT and deserve better.

I am for the bill.

I wish to remain anonymous.

Thank you
