AGON 7.2

QUESTION: Provide a breakdown per region of families that are issued income management notice

ANSWER

- Since implementation in Term 4 2025 and as at 17 April 2026, 49 families have been referred for income management with 37 assessed as eligible for the program.
- Due to the small numbers when the data is disaggregated by region, there is a disclosure risk of identifying individual students and families. Some regions have been aggregated in the response below to protect individuals in line with privacy requirements.
- Of the 37, 22 were in the central region, 7 in the Darwin region, and the remaining 8 across the other 4 regions.
