Answer: Answered On:	07/07/2016				

ESTIMATES COMMITTEE Question Taken on Notice

Date:	16 June 2016	Output:	Community Treatment and Extended Care		
Subject:	Number of people returning to AMT program				
From:	Ms Lynne Walker				
То:	Hon John Elferink				
Agency:	Minister for Health				

Number: 4.9

Question: Minister, how many people who have been through the program in its entirety have returned, if those returns are more than once, and how many of those returns would include voluntary returns?

Answer:

Between 1 July 2013 and 30 March 2016 there have been 25 individuals who have completed alcohol mandatory treatment orders who have returned.

The alcohol mandatory treatment legislation does not allow for individuals to voluntarily return to alcohol mandatory treatment. There are a number of voluntary residential rehabilitation services available for people actively seeking alcohol and other drug treatment.
