**Question:** **1-1**  
How many people attended the most recent Alice Springs sittings, and how does it compare with the first Alice Springs sittings?

**Answer:**  
Answered On: 04/07/2005  
Answer: In 2003 there were an approximate total of 3500 visitors to the Alice Springs Sittings over the three days, consisting of 1500 students and 2000 members of the general public.

In 2005 student numbers were again in the order of 1500; the estimate of the general public figures extrapolated from the available data was estimated to be approximately 1300, making a total of 2800 over the three days, which was down on the 2003 figures for the general public.
