\$1.1 billion Remote Housing Investment Package Our Community. Our Future. Our Homes.

Our Community. Our Future. Our Homes.

The Northern Territory Government is improving Aboriginal housing in 73 remote communities by investing \$1.1 billion in from 2016-2017 to 2026-2027 through the Remote Housing Investment Package: Our Community. Our Future. Our Homes.

The Remote Housing Investment Package consists of:

HomeBuild NT

\$500 million to build new homes.

Room to Breathe

\$200 million to increase living spaces in existing houses to reduce overcrowding.

Expanded government employee housing

\$200 million to expand government employee housing to include housing for locally recruited NT Government employees in remote areas.

Repairs and maintenance

\$200 million for additional repairs and maintenance, focussing on preventative and cyclical work.

An additional \$426 million is being invested in land servicing, including subdividing land for additional housing and connecting water, sewerage, and power.

HomeBuild NT \$500 million to build new homes
