1. Which offices of the Department of Education occupy rented premises.
2. What are the addresses of these premises.
3. What is the cost per annum for each of these premises.
4. From whom are these premises rented.

ANSWER

Extensive information in relation to office accommodation (which included Education premises) was tabled during Committee Stages of the Appropriation Bill on 24 September 1992. Details regarding occupation is a matter of public information and there is no intention of having public servants put any more time and effort into matters where information is already available.
