

Dear Scrutiny Committee,

Re: Support for the Pipelines and Petroleum Legislation Amendment (Industry Development) Bill 2026

Energy Club NT is a not-for-profit organisation representing more than 560 members, including energy producers, gas pipeliners, contractors and local service and supply businesses supporting the Northern Territory's energy sector.

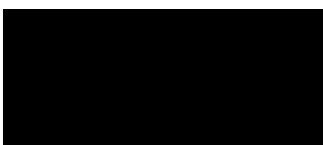

With visibility across the full project lifecycle, our members see firsthand the importance of consistent investment and project flow to sustain local capability, jobs and business growth.

We consider that the *Pipelines and Petroleum Legislation Amendment (Industry Development) Bill 2026* (Bill) will support a more stable investment environment, enabling industry to plan, invest and deliver projects with confidence. In turn, this will support local job creation, strengthen Territory businesses confidence and enhance the Northern Territory's ability to attract interstate and international investment.

The Energy Club NT supports the passage of the Bill in its current form, on the basis that it supports industry development while maintaining clear regulatory oversight and accountability.

Warm regards,

William Geddes

A/Chief Executive Officer – Energy Club NT
