CHECKLIST FOR MEDICAL PRACTITIONER ASSISTING PATIENT

Name and address of medical practitioner:

Name and address of patient:

1. The patient has requested that I assist him/her to end his/her life and I have agreed to do so.
2. The patient has attained the age of 18 years.
3. I am satisfied, on reasonable grounds, that -
 - the patient is suffering from an illness that will, in the normal course and without the application of extraordinary measures, result in his/her death; and
 - in reasonable medical judgement, there is no medical measure acceptable to the patient that can reasonably be undertaken in the hope of effecting a cure; and
 - any medical treatment reasonably available to the patient is confined to the relief of pain, suffering and/or distress with the object of allowing the patient to die a comfortable death.
4. A second medical practitioner who -
 - (a) is neither a relative or employee, nor a member of the same medical practice, of mine or the qualified psychiatrist referred to in clause 5; and
 - (b) is qualified in the treatment of the terminal illness from which the patient is suffering as prescribed by the Rights of the Terminally Ill Regulations,has examined the patient and confirms my opinion as to the existence and seriousness of the illness, that

(Attach report of qualified psychiatrist)

6. In my opinion the illness is causing the patient severe pain or suffering.

8. The patient has been informed of the nature of the illness and its likely course, and the medical treatment, including palliative care, counselling and psychiatric support and extraordinary measures for keeping the patient alive, that might be available to the patient.

9. It is my opinion that, after considering the advice and opinion of the medical practitioner referred to in clause 4, there are no palliative care options reasonably available to the patient to alleviate the patient's pain and suffering to levels acceptable to the patient.

OR It is my opinion that, despite an earlier request from the patient for assistance to end his/her life, palliative care was provided to the patient that brought about the remission of the patient's pain and suffering, that palliative care now ceases to alleviate the patient's pain and suffering to levels acceptable to the patient.

10. After the patient had been informed of the matters specified in clause 8, the patient indicated to me that he/she has decided to end his/her life.

OR The patient requested assistance under the *Rights of the Terminally Ill Act* but was subsequently provided with palliative care and after the palliative care ceased to alleviate his/her pain and suffering the patient indicated to me that he/she has decided to proceed in pursuance of his/her earlier decision to end his/her life.

Date signed the certificate:

(Attach certificate of request)

16. An interpreter was required to be present at the signing of the certificate of request in accordance with section 7(4) of the *Rights of The Terminally Ill Act*, and has signed the certificate confirming the patient's understanding of his/her request for assistance.

Name and address of interpreter:

Date signed the certificate:

17. I have read and been guided by appropriate medical standards and by the guidelines prescribed by the Rights of the Terminally Ill Regulations, and have considered the appropriate pharmaceutical information about any drug reasonably available for use in the patient's circumstances.

18. I share the same first language as the patient.

OR As I do not share the same first language as the patient, when assisting the patient under the *Rights of the Terminally Ill Act*, I communicated with the patient in the presence of an interpreter qualified as required by section 7(4) of that Act.

19. I have no reason to believe that I, the countersigning medical practitioner or a close relative or associate of either of us, will gain a financial or other advantage (other than a reasonable payment for medical services) directly or indirectly as a result of the death of the patient. I have not caused the patient to be influenced in his/her decision to end his/her life by way of any duress or undue influence.

- rescinded his/her request for assistance

22. I provided the patient with the assistance to end his/her life by -

- administering the drug or drugs to end his/her life to the patient; and/or

23. I am satisfied that the conditions of section 7, and the other requirements, of the *Rights of the Terminally Ill Act* have been met.
