Legislation Scrutiny Committee

Petroleum Legislation Miscellaneous Amendments Bill 2019.

Hello Legislation Scrutiny Committee.

I am writing this submission as a concerned Territorian.

It is good that submissions can be made by the general public & those that are concerned in regards to issues, and the submissions are made available online for concerns to be read.

I believe the submissions supporting the Industry, should also be available for the public to acknowledge the reasoning.

All submissions should be made available online to the public.

Within this Bill, I noted that the Minister does not always need to publicize the reason for accepting an application.

All Decisions & reasoning should be made public, to ensure transparency.

Thank you,

Heidi Jennings.
