

LEGISLATIVE ASSEMBLY OF THE NORTHERN TERRITORY

WRITTEN QUESTION

Mr Guyula to the Minister for Mining:

Fracking

- 1. During estimates I asked how recommendation 9.8 of the Pepper Inquiry has been met. In your answer you stated that there has been a “huge body of work done in dealing with emissions”. Could you please detail what exact parts of this body of work meet the requirements of recommendation 9.8?**

Please redirect this question to the Minister for Environment, Climate Change and Water Security.

- 2. Will mining management plans be legally required to be made public so that appropriate public scrutiny of all mines' water extraction can occur?**

Approved Mine Management Plans are published on the website of the Department of Industry, Tourism and Trade.

In relation to the publication of water extraction data, please redirect this question to the Minister for Environment, Climate Change and Water Security.
