Subject: Voluntary Assisted Dying for Northern Territory Australia
Date: Thursday, 28 August 2025 5:25:56 PM

CAUTION: This email originated from outside of the organisation. Do not click links or open attachments unless you recognise the sender and know the content is safe.

I Believe that Voluntary Assisted Dying Should be legal in the Northern Territory

I believe that we should match the legislation in Switzerland and Belgium

We should not have any restrictions on the timeline to death

We should not have any restrictions between Australian territories

We should be allowed to discuss VAD with our Doctors over the phone
(To help people in remote areas)

And we should fund practioners to travel to their clients
(Again to help people in remote areas)

Doctors who object to VAD should be required to refer their clients to other doctors who approve

Anyone who is of sound mind and not being coerced into VAD should be allowed to access it as is the case in Switzerland and Belgium

I believe people with Disabilities who are not Terminally ill should still have the right to access VAD

If the idea of people with Disabilities committing suicide is upsetting to you
You should do more to ensure the wellbeing safety and quality of life for disabled people

Rebecca Muller
