Hi.

No to fracking.

How dare you put my children's lives in danger with your greed?

The people are sick of this bullshit and our elected leaders are corrupt and are not our voice.

Money is not a measure of anything, it's simply a trading token and I care little for it.

What I do care about is my family and friends and community in which I live.

Stop putting tokens above people.

Thanks and whatever.

Jeremy
