Question Number: 9-3

Date: 18/06/2019

From: Mr Gary Higgins

To: Hon. Eva Lawler

Portfolio: Environment & Natural Resources

Agency: Environment & Natural Resources

Subject: Breakdown of bore construction permits

QUESTION

Could I get a breakdown of the 185 bore construction permits into new bores as opposed to reconstruction?

ESTIMATES COMMITTEE
Answer to Question Taken on Notice

Question Number: 9-3

Date: 18/06/2019

From: Mr Gary Higgins

To: Hon. Eva Lawler

Portfolio: Environment & Natural Resources

Agency: Environment & Natural Resources

Subject: Breakdown of bore construction permits

ANSWER

It is in relation to bore construction permits, new versus reworked bores. For the period 1 July 2018–31 December 2018 there were 19 bore work permits for new bores and 29 bore work permits for reworked or decommissioned bores. Efficiencies were introduced from 1 January 2019, which saw approvals for more than one bore per bore work permit. This means that differentiated data is not available for the period from 1 January 2019 to present day.
