

LEGISLATIVE ASSEMBLY OF THE NORTHERN TERRITORY

WRITTEN QUESTION

Mr Higgins to the Minister for Infrastructure, Planning and Logistics:

Tiger Brennan Drive – non-stop Freeway

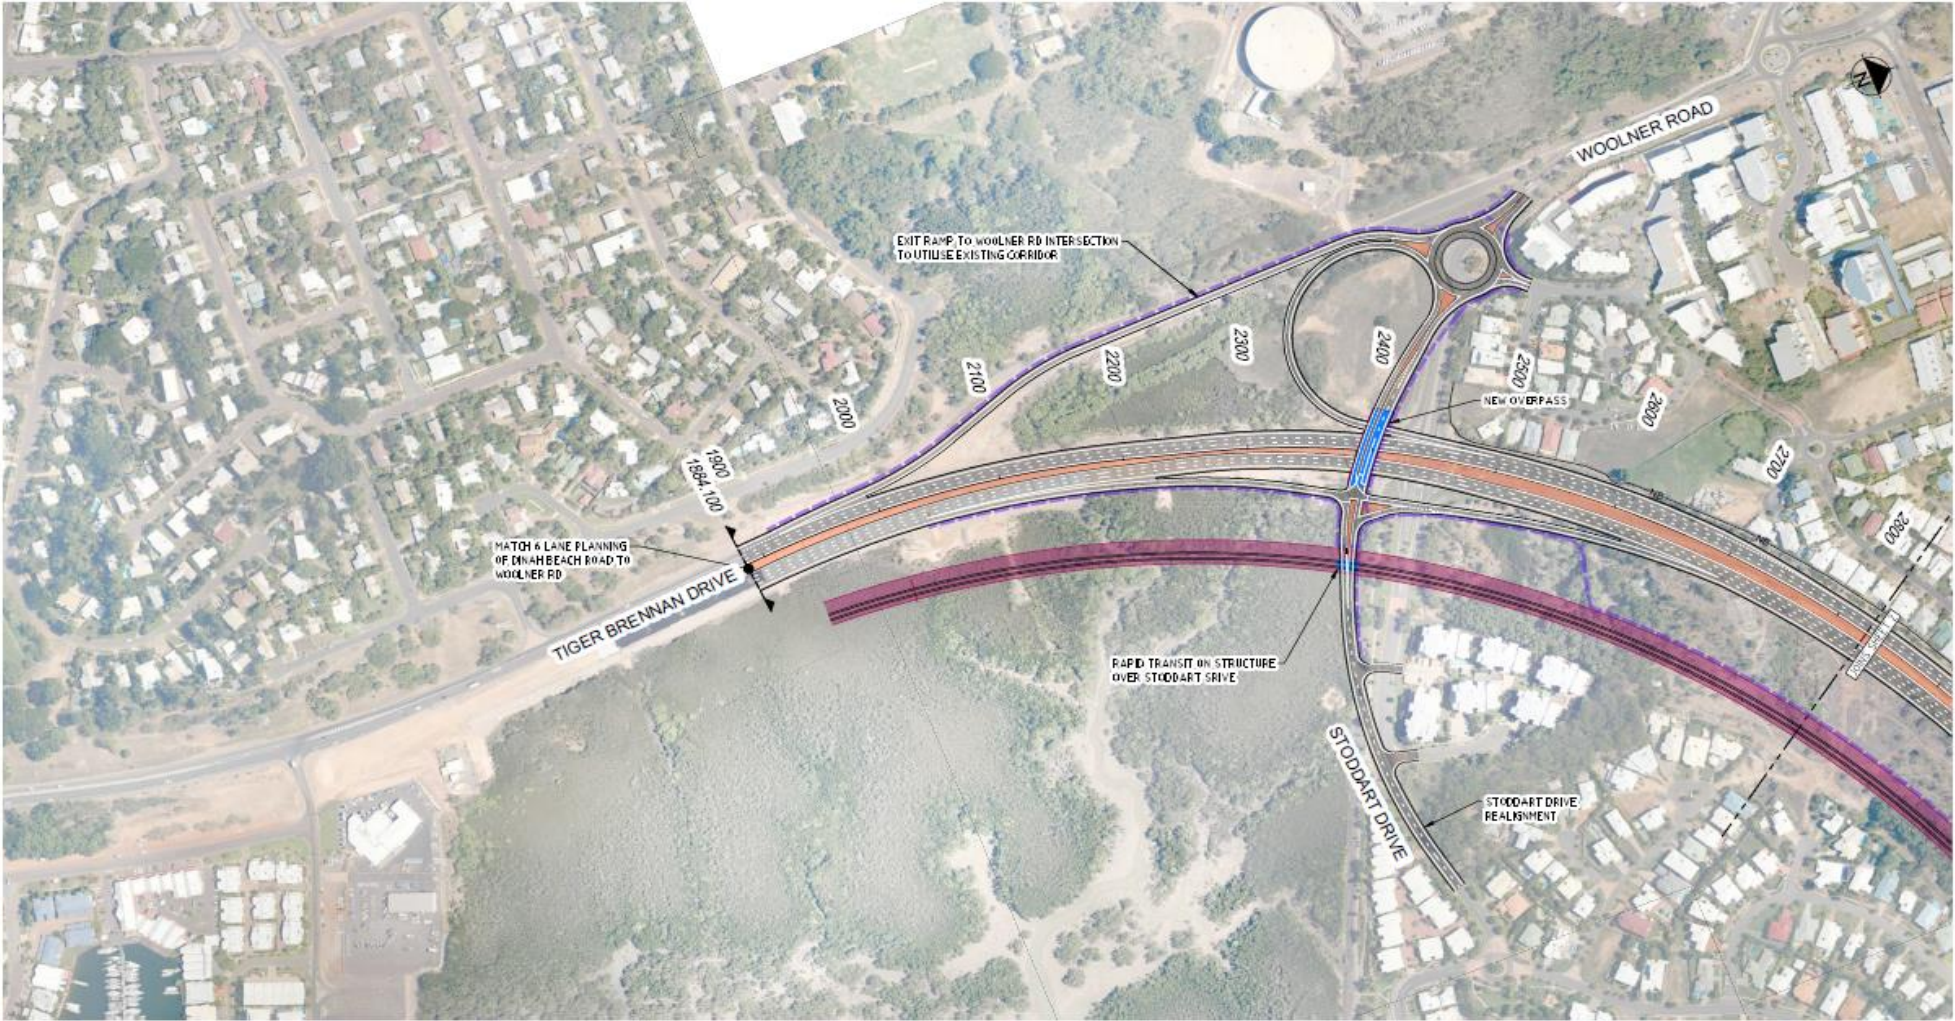

- 1. Please advise whether a feasibility study, or plan, to convert Tiger Brennan Drive into a non-stop freeway exists; and what the cost of this would be.**

The Tiger Brennan Drive corridor has always been planned to ultimately be a non-stop, six lane freeway with grade separation anticipated at the current intersections. Preliminary high level options for selected intersections have been developed as shown in Attachment A (SMEC Interchange Options) and Attachment B (GHD Interchange Options).

These options are concepts only and have not been costed, though will be significant. Further work is required to finalise the concepts and detailed design of the grade separated interchanges.

- 2. If such a study or plan exists, can you please provide a copy?**

The preliminary high level options are shown in Attachments A and B.
