Subject: Territory Economic Reconstruction Commission Costs

QUESTION:

How much did the Territory pay the Territory Economic Reconstruction Commission?

ANSWER:

The Territory has weathered the pandemic better than anywhere else in the country, and we've started the economic recovery before the rest of country. We are Australia's comeback capital.

We are determined to turn this crisis into an opportunity for the Territory, and the Territory Economic Reconstruction Commission has given us a blueprint to help attract more private investment which we are putting it into action.

Remuneration paid to the Territory Economic Reconstruction Commission in 2020-21 was \$25 872.
