

**LEGISLATIVE ASSEMBLY OF THE NORTHERN TERRITORY**

**WRITTEN QUESTION**

Ms Purick to the Minister for Health; and National Resilience:

**NT Government's Mandatory Vaccination Scheme**

1. How will an employer provide the employee vaccination status data to government and in what format and on what timeframe and regularity?
2. How will the government regulate businesses to ensure that an employer is undertaking the required tasks?
3. How will the government address and monitor sole traders who employ people on a casual or subcontracting basis?
4. Will the NT Government allow software companies based in the NT access to this data so they can develop vaccination status integrations for workplaces?
5. How will the government guarantee privacy of an individual's data?
6. Where within government will the data be stored?
7. Will the vaccine status of an individual be able to be transferred to an interstate government agency if the person moves to an interstate employment situation?
8. How will the government address people who are "irregular" that is, people who have been vaccinated outside of Australia and their vaccination status is not recorded in the Australian Immunisation register?
9. At some time in the near future, will government look to regulate employers such that non forwarding of information will result in a penalty?
