Communities

Subject: Location of new government employee house

QUESTION

Of the one new government employee house delivered in the reporting period, where was it located?

ANSWER

Three government houses have been completed in 2021–22. One in Wurrumiyanga in Tiwi Islands, which is a two bedroom dwelling located at Lot 741. This is the location for the question asked by the Member for Namatjira.

The additional two homes that have been built after the estimates reporting period up to 31 March were completed in June this year—very recently this month. Two of those GH dwellings have been located in Wadeye community. They are two bedroom houses located at Lot 626 and Lot 627.
