(c) Where there is a difference between FTE and Headcount (Actual), please provide an explanation for the difference, including any reasons for use of part-time and casual positions within the overall workforce profile.

'Full Time Equivalent (FTE) = the proportion of an employee's salary payment to that of an equivalent full-time employee in any given fortnight.

Paid Headcount = Headcount is the count of physical people, so a part-time person would count as one.

The NT Government provides opportunities for employees to balance the demands of work with the needs of family and general health and wellbeing. Flexible work practices are used in the NT Public Service to attract and retain

employees. Flexible work arrangements can include flexibility in relation to an employee's hours of work, or mode of employment such as part-time, and leave.'

NT Health utilises casual and part-time staff to manage the activity driven nature of the service allowing operational areas to respond to activity demand.

2. Please advise the number of staff held against the following categories as at 31 March 2024:

Category	Number
Resigned	921
Made Redundant	2
Terminated	17
Unattached	135
Classified Redeployee	0
Supernumerary	1638

3. Please advise the number of staff who identify as Aboriginal and Torres Strait Islander as at 31 March 2024.

A whole-of-government response to Question 3 will be provided by the Office of the Commissioner for Public Employment.

4. (a) Please advise the number of Frontline staff as FTE as at 31 March 2024 and as a percentage of the Agency total employment.

Category	Number	%age of Total Staff	
Frontline	4480.51	62%	

(b) Please advise how the Agency determines which staff fall under the category of Frontline.

NT Health determines frontline staff as those whose principal or primary functions is providing direct services to the public.

5. Please advise how many staff have been engaged through labour hire, employment agency arrangements and/or consultancy contracts, for what purpose, for what duration and at what cost as at 31 March 2024. Please use the table format presented below for your response.

The below table is for locums and labour hire. The FTE has been estimated based on an average cost per stream. We are unable to detail duration and purpose for each engagement as it is too administratively onerous.

Stream	YTD FTE (conversion)	YTD Exp \$
Medical	75	37,812,215
Nursing	341	69,130,657

,oa : .oa.u.	Total	434	109,900,710
Allied Health		18	2,957,838

6. Please advise how many locums have been employed, for what purpose, for what duration and at what cost as at 31 March 2024. Please use the table format presented below for your response.

Providing a FTE figure for locums is administratively excessively time consuming to collate. Therefore a partial response is provided.

NT Health Regional Health Services continually seek to attract, recruit and retain a suitably qualified health/medical workforce; however, locums are required to ensure service delivery is met.

Locums were employed during the 2023-24 financial year for varying periods ranging from weeks to 6 months across a range of regions, program areas and professions for various reasons, including covering long service leave, emergency personal leave, and professional development including sabbaticals, temporary transfers, vacant positions and holiday periods (Christmas and New Year).

(d) How many positions that had Special Measures applied were not able to be filled against these requirements during this period and required contract or backfilling arrangements?

Most NT Government agencies have implemented special measures arrangements across the whole agency or for some roles. The process for positions that are advertised with special measures is to consider special measures applicants first; if no special measures applicants apply, or no special

measures applicants are considered suitable, recruitment panels may assess all other applicants' suitability for the role.
