Hello,

As an NT resident I am deeply concerned about the proposed Territory Coordinator role.

The Coordinator would have extraordinary power to override many environmental safeguards in the name of 'jobs' - more likely profits \$\$ of industries.

Our natural resources are finite. Our water sources are not inexhaustible, they are the lifeblood of the land and the people.

We can't allow short-term profit to deprive future generations of our rich, natural environments.

Please do not approve The Territory Coordinator role. It's undemocratic and unethical.

Regards  
Janette Thomas
