Dear committee,

As a territorian id like to express my concern for the world around VAD.

Every individual should have the legal right to chose how the live their life but also how they end their life with dignity and self respect.

No one should have to leave their home town to die peacefully because their state/territory doesn't allow them to have the choice.

I don't want to see my family and friends or even me, suffer and lose dignity because of the small mindset of a few politicians.

We should have the right to choose our life and death with dignity.

Thanks Rebecca
