Dear NTG,

Please do not permit voluntary assisted dying in the NT. Life is precious and no one should feel pressured either to accept the premature death of a loved one or that they should access VAD to accommodate others. This is not a risk for everyone and those who still want to access VAD and travel elsewhere if they are certain they want to die on their own terms. We need to protect vulnerable people over the rights of people with power and options.

Miriam Wallace
