

## LEGISLATIVE ASSEMBLY OF THE NORTHERN TERRITORY

### WRITTEN QUESTION

Mr Higgins to the Minister for Housing and Community Development:

#### **Contracts and Tenders**

1. What contract assessments are in place to ensure public/community housing in remote communities is built at a reasonable cost? For example, one developer has told us a house which costs \$600,000 to build in remote areas could be built for \$400,000.
2. From the Global Questions answers, IT Business Solutions won a competitive tender of \$177,975 for the design and development of the BushTel website. We can't seem to find reference to the tender in the "Awarded Tenders" list. Please advise if IT Business Solutions is a local company, how long was the project, when was it finalized and please provide us with the tender documents.
3. From the answers to the Global Questions, JKW Law Practice conducted legal work for the agency for \$101,175 in the reporting period. Was that for a specific case or for a range of legal work?
4. What is the "elected member training package" delivered by Team Ambrose and Think About Learning at \$50,000 each?
