Subject: Cruise ship industry

From:Mr Kon Vatskalis to Hon Matthew Conlan Tourism NT

7-10

Question: Tourism NT is estimated that in 2012-13 the cruise ship industry generated

approximately \$66.8m what is the estimate for 2013-14 and 2014-15?

Answer:

For the year 2012-13, so we do not have the information for 2013-14 yet and we will not know the projections at this stage. We do not know what the schedules are going to be like for the coming year, but to give some sort of indication at least, it is \$116.2m. That is indirect and direct. Direct expenditure is about \$64m, but total economic impact of cruise shipping in the Northern Territory is \$116.2m.
