Subject: Staff Satisfaction Surveys

**From:**Ms Delia Lawrie to Board Chairman Mike Burgess  
Power and Water Corporation

---

**11-3**

**Question:** Please provide the most recent staff satisfaction survey, and please provide what it has indicated about staff morale in Power and Water.

**Answer:** There was a formal staff survey conducted in April of this year; we have just received the results, and I think they have gone up on the PWC website just this week or last week. The headline of the results are that 71% of respondents rated their satisfaction as being an employee of Power and Water as six or more; the range was zero to 10, 10 being the highest. Eighty nine per cent of respondents said that PWC is an organisation they want to work for, 97% agree that their team is committed to doing quality work, 93% of staff advise that PWC is a safe working environment and 94% felt well informed about safety, and that information is on the PWC website at the moment
